

2022 Medicare Star Ratings*

Each year, Medicare rates all health and prescription drug plans based on quality and performance. By reviewing our star ratings, you can better understand how well our Medicare offerings are performing. You can use this data to compare our plans with others.

Each plan receives a rating between 1 and 5 stars.

★★★★★	5-star: Excellent
★★★★	4-star: Above average
★★★	3-star: Average
★★	2-star: Below average
★	1-star: Poor

Two main types of star ratings

- ① An overall rating that combines the scores of all the plans we offer
- ② A summary rating that focuses on medical and prescription drug services

Some of the areas Medicare reviews to determine a star rating include:

- How our members rate the services and care of our plans
- How well our doctors are detecting illnesses and helping to keep members healthy
- How well our plans help members safely use recommended prescription medications
