

“ Let’s talk
about it.

Get screened to prevent
cervical cancer.”

Women between the ages of 21 and 65 should receive regular cervical cancer screenings. Talk to your doctor about the best test for you to prevent and catch cervical cancer. *Screening is a covered preventive benefit through Sanford Health Plan.*

Schedule a screening today or contact Customer Service
at **(800) 752-5863** for help finding a doctor
