

Nutrition & Exercise Consultations

Personalized advice and instruction to improve your physical well-being

Nutrition and exercise are powerful tools to prevent chronic disease. Meet with a Registered Dietitian and/or fitness expert to receive individualized plans to meet your health and wellness goals.

Nutrition consultations include:

- Diabetes and pre-diabetes
- Heart disease
- High blood pressure
- High cholesterol
- Metabolic syndrome
- Weight loss
- Osteoporosis and bone health
- Meal planning and shopping

Exercise consultations include:

- Beginning exercise
- Cardiovascular exercise
- Weight loss
- Working out at home
- Event training
- Chronic pain
- Mobility and balance
- Strength training
